
Papago X9 Software Free Download _BEST_

Hi Sifus, I have an old PND that I would like to use to rate a Papago X9. May I know if anyone has the software and map for Singapore and Malaysia? I would consider upgrading to PND 2 and exploring Papago when I raise the money, but what if I still have the old PND? Perhaps there is something that has already been done, or if someone can write it for me, I would love to do it myself! Thanks for any suggestions For those who want to try Papago for PND 2, you should take a look at Papago Open. It won't be simple and easy, but it will have a very good tool to use.
